CANADA'S PRIME MINISTER STEPHEN HARPER IS ADDRESSING PARLIAMENT TODAY.

HE DOES NOT DESERVE THIS HONOUR.

STEPHEN HARPER IS:

► promoting the **tar sands** industry which is so carbon-intensive that, if allowed to keep expanding, could tip us over the edge into **runaway climate change**

► trampling on the rights of Canada's **Indigenous Peoples**, in order to expand destructive tar sands projects

► cosying up to **David Cameron** to get his help promoting Canada's dirty fossil fuels

► **lobbying** against EU climate legislation that would discourage imports of tar sands oil into Europe

► trashing Canada's **climate targets**, and has pulled out of the Kyoto Protocol

► **muzzling** Canada's own climate scientists

HE MUST BE STOPPED

The right to address both Houses of Parliament is a prestigious honour, reserved for the most highly-respected foreign dignitaries such as Aung San Suu Kyi, Nelson Mandela and the Dalai Lama.

Harper does not deserve this honour whilst he and his government are doing so much to destroy the environment for current and future generations.

Today we stand in solidarity with those in Canada affected by Harper's many devastating policies and those resisting tar sands expansion. Europe does not need this dirty oil.

Keep tar sands out of Europe and stand up for a cleaner fairer future.
